# DNA Analysis

- Began in early 2021
- Uses Guelph University's DNA barcoding lab
- Relatively small budget (\$5000-\$7500 CAD / year)
- Three of our largest airports pay for their own samples to allow for smaller airports

# Upcoming Advisory Circular

- Guidance on wildlife hazards at land uses off airport
- Targeted at airport sites with airport zoning regulations
- Guidance for land use authorities and municipalities
- Consultation period will begin early fall
- Predicted publication early 2026
